

Theta Delts in Boston and vicinity. Sixty-one attended, including many undergraduates home for the holidays.

The annual banquet of the New England Association was held on February 6 at the Hotel Westminster, Boston.

President "Bill" Burnham, Z '07, introduced as toastmaster Charles F. Berry, Jr., K '04, who conducted the proceedings with consummate art and incidentally told a few of his own.

The first speaker, Arthur N. Ward, O Δ '72, told of his personal experience in the founding of the Dartmouth charge and followed with a delightfully amusing description of student life and customs in the seventies. There must have been a fountain of eternal youth at Hanover in those days, for Brother Ward has lost none of his enthusiasm for his college and fraternity during the 52 years since he was graduated. He proved an inspiration to all of us fortunate enough to meet him.

Russ Whitmore, K '16, much to our delight, came on from New York to tell us at first hand about the Founders Corporation drive and to prove his loyalty to the New England Association and Kappa charge.

Don Scott, K '15, amused the company with a dry line of humor all his own. Let the next convention banquet committee make note of this bright light. He has remained under a bushel all too long!

Lew Barker, Z '99, laid aside his collection of pipes long enough to regale us with a few smoking car stories which had the good old burley flavor.

There was music in the air—jazz by local talent, and vocal by the crowd, after which the silent toast was given and the party broke up into groups which lingered to reminisce.

Eighty-two Thetas attended and unanimously voted that Mitch had engineered a wonderful banquet. On the police blotter, he is known as Walter E. Mitchell, K '15.

CLEVELAND HONORS LOVE

The Cleveland Graduate Association held a dinner at the Athletic Club on the evening of March 25 in honor of William F. Love, X '03, P. G. L., who made an official visitation. About twenty-five brothers were present.

**CLEVELAND
GRADUATE
ASSOCIATION** Brother Love gave an interesting and instructive report of fraternity affairs and answered numerous questions propounded by the brothers. It was a pleasure for the Cleveland men to meet and know "Prexie" Love.

Five members of Zeta Alpha at Kenyon College, petitioners for the revival of Θ charge, were guests at the dinner and made an excellent impression. Mr. Maurice Campbell, one of the petitioners, addressed the meeting in behalf of the petitioning body.

After considerable discussion of the Θ movement Matthew S. Farmer, Jr., X Δ '11, presented a resolution indorsing the petition to revive Θ and urging favorable action thereon by the convention and charges. The resolution was unanimously carried by a standing vote.

The association elected M. J. Barker, Jr., Ξ '13, as a delegate to the New York Convention.

A delegation from Warren, Ohio, attended the dinner, headed by Judge Charles M. Wilkins, N Δ '88. Brother Wilkins in a vigorous talk pointed out

the need of a charge of Theta Delta Chi in Ohio and urged the brothers to work for the re-establishment of Θ charge.

Arrangements for the dinner were in charge of George B. Gould, H '00, and J. Fred Meyer, K Δ '07, president and secretary-treasurer respectively of the Cleveland Graduate Association. This committee spared no efforts in making the dinner a decided success in every way.

The Western New York Alumni Association of Theta Delta Chi held its second annual banquet as a chartered organization at the University Club in the City of Buffalo, N. BIG DOINGS IN LOS ANGELES

The greatest gathering of Theta Deltas ever held in Los Angeles assembled on Friday evening, March 14, 1924, at the banquet given by the Southern California Graduate Association in honor of Brother William F. Love, X '03, P. G. L. The big party took place at the Wilshire Country Club and was preceded by an informal reception during which our esteemed chief was introduced to 48 brothers, representing 20 charges. At the festal board were brothers who made their first appearance as members of our association, as well as those who unfortunately have a habit of absenting themselves for indefinite periods.

Alex. W. (Ike) Davis presided. Jollity and laughter reigned. The old-time songs, such as "Come, my boys," and "Theta Delta Chi Shall Be Our Anthem" awoke the echoes. Late comers were greeted boisterously and even the most sedate of the old boys were the butts of quips and witticisms.

An excellent menu was followed by stories and more singing. Speeches were few and impromptu. President "Ike" was warmly congratulated on accomplishing the seemingly impossible. He succeeded in inducing Frank Belcher to talk for ten minutes without once mentioning the subject of golf. For Frank, though an A1 lawyer, is not greatly addicted to oratory, but he is the golf champion par excellence of the only Theta Delta Chi golf club in the world. Douglas Fawcett, the efficient secretary of the association, by request and for the information of President Love, then submitted data which was convincing evidence that our organization is keeping pace with the Angel City in the matter of growth.

William Woodside Curtis, H '82, of Boston, who has been spending a winter vacation in California, which fortunate region had scarcely a vestige of winter this year until spring approached, next spoke on Theta Delta Chi, a subject which he is well fitted to discuss. Not only is Brother Curtis the only man on our rolls who is the father of three Theta Deltas, but he has been instrumental in adding several illustrious names to our fraternity list. For a dozen years or more he was principal of the high school in Pawtucket, R. I., an institution noted for the number of students it sends to New England universities. Under his tuition, Alexander Meiklejohn and others equally well known in the educational world prepared for college. In the crowd that greeted Brother Love, Curtis was delighted to find several old friends and associates who knew him when he was a Rhode Islander.

President Love made a thoughtful and timely address on problems facing the fraternity. He went deeply into the matter of finances and pointed out the necessity of providing additional sources of revenue. He strongly urged the strengthening of the funds of the Founders Corporation and indicated methods that might make a complete success of the proposed campaign for that purpose.

Brother Love put in about four days in Los Angeles, and, besides attending the banquet, was the guest of brothers at private dinners and luncheons. It was the unanimous sentiment of all who met him, that he is the right man for the important office to which Theta Delta Chi has elected him. He was introduced to golf as it is played in the magic city of the Pacific Coast, and was personally conducted through Hollywood, where moving pictures are in the making all the time.

Seward A. Simons, B '79, who has held all the offices in the Grand Lodge and has attended nearly every convention held during the past fifty years, sent a letter of greeting and good wishes to Brother Love along with a note to the banqueters regretting that he could not take part in the festivities, being con-

fined to his home by illness. It needed only his presence to make the occasion an even greater success than it was. He was one of the organizers of the Southern California Association and has labored energetically to promote its progress and prosperity. Loud and prolonged cheers greeted his message.

There were present at the banquet: William F. Love, X '03; Alex W. Davis, H^Δ '14; William W. Curtis, H '82; E. W. Bartlett, H '80; Frank B. Belcher, H^Δ '13; J. H. Joyce, Z '06; J. B. PREXY LOVE HONORED IN SAN FRANCISCO

The California Graduate Association, on the evening of March 6, was deeply honored by having as its guest President William F. Love, at a banquet held at the Fairmont Hotel. After the eats were successfully tucked away beneath our belts, Brother A. C. Stoddard, Δ^Δ '10, president of the association, arose and in a few words turned the affairs of the evening over to Frank Buck, our ex-P. G. L.

Brother Buck in a few forceful words, as is his custom, introduced President Love, who then gave us one of the finest talks that we have ever listened to.

Brother Love brought home to us very forcibly what Theta Delta Chi means to us all, what the aims and ambitions of our beloved founders were and told us what plans were under way regarding the campaign for the Founders Corporation. He told us of the splendid offer made to the fraternity by Brother Mellon and we naturally are hoping that the conditions will be met by the fraternity as a whole in order to have the offer completed, which means so much to us all.

Buck then called upon Shirley Walker, Δ^Δ '02, one of the charter members of Delta Deuteron charge, who gave us a very fine talk, touching upon the things that are of so much interest to us all, at all times, doings of our own fraternity.

Seeing that Brother Love was to go from here to Los Angeles and wishing for him to have as complete an idea as possible of that southern town in our state, Brother Buck called upon Brother Day to enlighten Brother Love as to some of the pitfalls to beware of when alighting from the train. In passing it might be well to add that we in San Francisco can be of great help to our

brothers down south if they would send us a complete rate list of household furniture from the East to Los Angeles.

College songs were given by the members of the various charges and as there were many from Stanford and California it made it rather hard for Kappa Deut to give hers, but it was done nevertheless by Day without murder being committed. In contrast the other charges sounded more like a glee club instead of a solo.

Thompson, H Δ 10, when called upon for a talk, said that it was the first one that he had ever given before a Theta Delt gathering, but if that were the case I wish to hereby accuse him publicly through our official organ of having practiced extensively before others, because he certainly put it over, as Tommy always does.

Walter B. Clarke, X '01, when called upon, told us that he was the man who put the pledge button on Brother Love. Clarke was accompanied up from San Jose by Dick Tower, X '01, who sure gave us many reasons for voting for him instead of John McCormick as the leading tenor of the world. Frank Havenner, X '05, added words of welcome to Brother Love.

After the dinner we all had an informal chat with Brother Love and were all the better Theta Delts for having heard him talk and to talk with him.

Frank Buck gave a party for him at his ranch at Lodi which many of the brothers were invited to and from reports to be had a good time was had by all.

Shirley Walker also gave a luncheon for Bill at the University Club.

Those attending the banquet were: William F. Love, X '03, twenty-eighth President Grand Lodge; Alec. C. Stoddard, $\Delta\Delta$ '10; Frank R. Havenner, X '05; Frank H. Buck, $\Delta\Delta$ '07, ex-P. G. L.; E. H. Falconer, Z Δ '11; Francis B. Smith, N Δ '97; Leonard W. Buck, $\Delta\Delta$ '13; Marsten Campbell, Jr., $\Delta\Delta$ '18; N. W. CLIFFORD W. L. DAY, K Δ '13, *Corresponding Secretary.*

One of the founders of Chi Psi, Philip Spencer, while serving as midshipman on the U. S. brig of war *Somers*, was executed for mutiny because in his possession were found messages in Greek which the ship's officers took to be evidence of a plot to overthrow the ship when in reality the papers had to do with his fraternity and when he refused to explain them he suffered the fate of a martyr.

The article further declares, "Lewis took charge on January 15, and at once got bids from several tankage buyers. ΛΔ CHARGE

NED LITTLEJOHN, '24, has at last been thrust out into the cold world, into which he has been just rarin' to go. We are waiting to hear how it affects him.

MAC LANGTON, '24, the obstinate little cuss of Lambda Deuteron, has at last left our midst. We are expecting him to solve the financial difficulties regarding the great oil scandal down at Washington in his spare time. We certainly wish him the best of luck in his role as a Grad.

JIM HAINES, '24, the "wonderful one" of University Colleges, past master in the ancient and noble art of courtin', has left the undergrad ranks of Lambda Deut., to take up the methods of evading the law at Osgoode Hall.

The graduates of Lambda Deut now include the tallest living Whitelaw in existence in ALEC WHITELOW, '24. It has lately come to us through reliable channels that Shorty is more of a Sheik than has been heretofore surmised. Te tells us that he intends retiring to the dark and shady recesses of the forests, but you can't believe this.

Lambda Deuteron can pride herself in turning into the world a modern Demosthenes in BERT PLAXTON, '24. He intends going down to Osgoode Hall to take up law. If Bert can't sway a jury they simply cannot be swayed, that's all.

GARRY MAYBEE, '24, the Freddy Carter of Lambda Deut., has turned his steps toward law also. Garry, for

some reason or other, has a big interest in Port Credit, Ont.—we suspect him of holding something back from the boys, but time will tell.

WILSON HAMBLY, '22, it is rumored, has signified his intention of joining the ranks of the benedicts. If this is so, Lambda Deut. certainly wishes him the best of luck.

The undergrads surely do miss the guiding hand of FAC COOCH, '10, especially in rushing. Fac is with the Westinghouse at Hamilton now.

DR. G. R. NODWELL, '22 (Nod), is curing the ills of a big part of the Moslem world out in Mesopotamia.

The REV. GARDNER ALPHEUS MACWHORTER, '13, pastor of St. Edmund's Episcopal Church, 5831 Indiana Avenue, Chicago, was appointed February 1 by Bishop Charles P. Anderson to the staff of the City Missionary Society of the Chicago Episcopal Diocese. The Rev. In addition MacWhorter is prominent in the affairs of the Interfraternity Association of Chicago.

Grace Episcopal church, 15th Street and South Wabash Avenue, will be sold and a new building erected near St. Luke's hospital, according to announcement of the rector, DR. W. O. WATERS, '84. Grace church for years ranked with St. James' church on the north side as a church of famous preachers and large and fashionable congregations.

The RT. REV. H. T. MOORE, D.D., Bishop Coadjutor of Dallas, is the author of a recent article entitled, *Requests as an Eternal Privilege*.

It was significant of the feeling of friendliness and confidence that BISHOP MANN, '81, has aroused during his brief residence here as diocesan that he should have been asked to be one of the speakers at the celebration of Armistice Day, November 11, 1923, held under the auspices of the Knights of Columbus, in Crafton, a borough and an integral part of the city of Pittsburgh. The other speakers were two Roman Catholic priests, a layman of the same communion and Dean Connelly of the Carnegie Institute of Technology.

Bishop Mann said in part: "If the Church is to bring about international peace it must first of all cultivate the temper of peace. This means a resolute frowning down of all racial and religious prejudice and intolerance."

O^Δ CHARGE

"What kind of an auto shall I buy?"

"Is Will a fit man for Mary to marry?"

"Who's the best man for me to vote for for mayor?"

"These are some of the questions sent in to the Chicago Theological seminary for me and other professors to answer," said DR. OZORA S. DAVIS, '89, president of the seminary. "Other questions, some of them theological, some abstract, some political and sociological, and some dealing with the best way to manage a family indicate," said Dr. Davis, "that a theological professor has to keep his feet on the ground even if his mind dwells

among the stars. These questions have been the outgrowth of correspondence with our alumni."

Π^Δ CHARGE

A Chicago paper summed up the candidacy of A. V. SMITH, '03, for nomination, as follows: "The situation in Lake county with regard to the candidacy of STATE'S ATTORNEY A. V. SMITH, Σ^Δ '01, for re-election is important to the residents of the county for one reason and to the residents of the state for another. It is important to Lake county because Col. Smith has proved himself an energetic and courageous prosecutor, to whom the punishment of evil doers may be intrusted with confidence.

Col. Smith, who has proved himself a patriot soldier in peace as he was in war, was called upon by his oath of office to prosecute Governor Small when the latter's case on a charge of embezzlement of state funds was assigned to Lake county under a change of venue. He conducted the prosecution energetically and ably, without regard to political pressure brought in behalf of the governor. When evidence developed that he had lost the case because the jury was tampered with he again was true to his oath of office, and superior to politics, and prosecuted the bribery charges; which prosecution resulted in the jailing of Mike Boyle and Ben Newmark. When these two men were pardoned by Governor Small, Colonel Smith came to the front for the third time and carried the case to the Supreme Court, where it is now pending."

NOTE.—Col. Smith was re-nominated by a large majority.

DUNCAN CAMPBELL LEE, '91, of London, England, delivered a lecture on the American Constitution in the series of lectures at Easter on American Institutions and Affairs at Kings College for Women, Campden Hill Road, W8.

When the Sigma Alpha Epsilon chapter at Kentucky Military Institute disbanded, and its members all went to war, they left their ritual and other secret papers in the possession of a young Kentucky girl, named Miss Lucy Pattie. Miss Pattie kept the papers carefully during the war and subsequently she was made a member of the fraternity.

NEWS FROM OUR NEIGHBORS

Beta Theta Pi has been published continuously since 1872.

"We will be glad," says an editor, "to hear of the death of any of the alumni."

The 1923 convention of $\Delta T \Delta$ created a new grand officer—the supervisor of scholarships. The plans of operation of the new office are not explained.

$\Phi \Gamma \Delta$ has prepared a "list of eligible institutions which it can enter without destroying its ideals."

Through its publication, ΣN admits that it stands among the first five fraternities on more college campuses than any other fraternity.

$\Delta K E$ is seeking a salaried field director for its endowment campaign, and ΨT at a recent convention also inaugurated a movement for a fund.

$\Phi \Gamma \Delta$ at Pennsylvania has an annual wood cutting expedition in which they gather the supply of wood for the winter months.

New chapters include $\Phi \Gamma \Delta$ at Toronto, $X \Phi$ at Penn State, ΣN at Utah, ΣX at Union, $\Delta T \Delta$ at South Dakota, Tennessee and Kentucky, and revivals of $\Delta K E$ at Louisiana, $\Delta \Phi$ at Michigan, and ΣX at Roanoke.

Fifty-six fraternities have placed chapters in 180 different colleges during the past 100 years. It is remarkable, however, that of the total existing chapters 40 per cent have been established during the past 10 years.

With the addition of chapters at Montana State and Drake University, $A T \Omega$ now has eighty chapters, leaving only the states of Idaho, New Mexico and Arizona in which the fraternity is unrepresented.

Sigma Chi is undertaking to erect a monument for each of its seven founders, some of whose graves are otherwise unmarked. First of the seven monuments recently was dedicated at Arlington to General Benjamin F. Runkle, their foremost founder.

The reasons given for joining $\Phi\Gamma\Delta$ by the initiates of this year have been tabulated and classified as follows: Local chapter personnel, 602; local chapter standing, 564; national standing, prestige, 301; influence of alumni, 202; Phi Gamma Delta relatives, 57; other Greeks' influence, 32; personal and miscellaneous reasons, 27.

Twenty-eight general fraternities grant new chapters by vote in convention, twenty-four by vote of the chapters (either to grant a chapter or to confirm the action of the convention) and eleven by the action of their governing body. Only eight fraternities require unanimous vote, while nineteen require a seventy-five percent vote.

One hundred graduate members of $\Phi\Gamma\Delta$ were asked the question "If it were possible for you to rub Alladin's lamp and obtain for $\Phi\Gamma\Delta$ one thing that you would believe would make it a better fraternity, what would that one thing be?" The answers ranged from "encourage the study of Greek" to "expell the 'dead beats.'" One member wishes to Babbittize the order by inaugurating a program of service patterned after the Rotary clubs.

$\Lambda X A$ has established the first of a proposed chain of summer recreation camps which it is expected will be patronized chiefly by young alumni. The first camp is on Donahue Lake, one of the seven thousand bodies of water in the Wisconsin lake area. Donahue Lake is on the Black Oak chain. The first camp is being financed entirely independently of the national fraternity by interested alumni.

The ΔT *Quarterly* has made a survey of scholarship standings in thirty-nine institutions. Twelve national fraternities were considered in the study. Delta Upsilon, with sixty-eight percent of its chapters above the average or middle fraternity in scholarship, led the field. Alpha Delta Phi and Phi Gamma Delta, with fifty percent of their chapters above the mid-point and fifty percent below it, were tied for second. The other fraternities followed in this order: Beta Theta Pi, Theta Delta Chi, Phi Delta Theta, Sigma Nu, Delta Kappa Epsilon, Delta Tau Delta, Zeta Psi, Kappa Sigma, and Psi Upsilon.

Alpha Tau Omega was originally intended as an organization of college men as well as a college fraternity and several "community chapters" were formed, which were not attached to any educational institution and which were not long continued. Alpha Tau Omega was the first fraternity to incorporate and the chapter at Sewanee in 1880 acquired the first house owned by any fraternity in the South.

IN MEMORIAM

We would like to receive and publish an obituary of each and every member who has passed into the Ω Charge.—Editor.

Col. T. P. Roberts, Σ '62; Ω February 25, 1924.

Thomas P. Roberts, aged 80, for more than 25 years assistant United States government engineer of the Pittsburgh district, died yesterday in his home, 361 North Craig street. He had been retired from the government service for two years.

He was born in Carlisle, Pa., and attended the schools of that district. He later attended Pennsylvania State College. In 1862 he went with his father to Brazil and was engaged as an engineer in building the Don Pedro railroad, said to have been the first railroad in South America. While working in Brazil the father was taken sick with fever and died. The son remained with the railroad as an engineer for several years and then returned here. He was employed by the Northern Pacific Railroad Company and then by the Baltimore and Cumberland Railroad Company. Later he was engaged in work on improvements on the Ohio river.

Went West

In 1872 he went West and remained in that section of the country making surveys of the Missouri river for three years, after which he returned again to the Pittsburgh district, where he made a survey of the upper Monongahela river and through this work became chief engineer of the Monongahela Navigation Company. He also made a survey of the Allegheny river from Pittsburgh to Olean, N. Y.

In 1897 the United States government bought the Monongahela Navigation Company and took over the work on that river, placing Mr. Roberts in charge. Until 1922 Mr. Roberts remained in the government service, retiring as assistant United States engineer of the Pittsburgh district. The last construction work in the Pittsburgh district done by Mr. Roberts was the improvements on Lock and Dam No. 1 in the Monongahela river at Eighteenth street.

Wrote on Science Questions

Mr. Roberts was an original member of the Lake Erie and Allegheny River Canal Company, a former member of the Pittsburgh Chamber of Commerce, a member of the Academy of Science of Pittsburgh, and a past president of the Engineers Society of Western Pennsylvania. Since he had retired from active business he had been engaged in writing on scientific questions.

He leaves two sons, Thomas P. Roberts, Jr., and James Milnor Roberts; three daughters, Mrs. William H. Bretzell of Ontario, Canada; Mrs. Francis K. Newcomer of West Point, N. Y., and Miss Annie G. Roberts, at home; two brothers, Richard A. Roberts of Charleroi, and Milnor Roberts, dean of the school of mines of Washington University, Seattle, Wash., and a sister, Miss Milnora Roberts of Seattle, Wash.—*Pittsburgh Gazette-Times*, February 26, 1924.

Doctor George H. Burke, Z^A 1906; Ω February 27, 1924.

Doctor George H. Burke, Lieutenant-Colonel, Medical Corps, U. S. Army Reserve Corps, was born in Ogdensburg, N. Y., on August 9, 1881, the son of Mr. and Mrs. Martin Burke, and entered the Medical College, McGill University, in 1902, from which he graduated in 1906. In the following year he was appointed a ship surgeon on a Canadian-Pacific passenger steamship sailing from Quebec to London and Antwerp. He spent the following year studying his specialty of gynecology in Vienna. He later took up work at the Heidelberg University and Versailles. For a year or more he was attached to the London Maternity and Children's Hospital, London, England. He returned to this country in the fall of 1909 and began a practice in Springfield, Mass.

When the United States entered the war in April, 1917, Dr. Burke immediately entered the Army as a lieutenant in the Medical Corps and was stationed at Fort Banks, Winthrop, Mass. Later he was ordered to the training camp at Oglethorpe, where he was made an instructor. From there, he was sent to France. He received promotions and on becoming Lieutenant-Colonel, was put in charge of Camp Hospital No. 33, which he built and for his work received citations from General Pershing. At the expiration of the war, he returned to Springfield, Mass., to take up his practice, later marrying Miss Blanch Jones, who was associated with him in France in charge of nurses at Camp Hospital No. 33.

Dr. Burke had two very severe attacks of influenza while in France and it is felt that he continued to suffer in later years from their effects. When he took up his work again in Springfield, Mass., his practice was so large that he had no time for rest or recreation. He was taken with a sudden attack of multiple neuritis bringing on a complete paralysis which caused his death.

He was an enthusiastic member of Theta Delta Chi and looked forward to the time when his son, now two years old, would be also wearing the shield.

Dr. Burke was a member of the Springfield Alumni of Theta Delta Chi, the American Legion, Niyasset Club, Springfield Country Club, and several fraternal organizations and was on the staff of the Wesson Memorial and Mercy Hospitals.

He is survived by his widow, Mrs. George H. Burke, a son, George H. Burke, Jr., of Springfield; a sister, Miss Mary H. Burke of Ogdensburg, N. Y.; and three brothers, Messrs. J. E. Burke and Frank G. Burke of Ogdensburg, N. Y., and Hugh Burke, New York City.

Dr. Orison Swett Marden, Λ '77; Ω March 10, 1924.

Los Angeles, March 10.—Dr. Orison Swett Marden, founder and editor of *Success*, a magazine, died in the Clara Barton Hospital here this morning after an operation. He was 75.

Dr. Marden was born in Thornton, N. H., and his mother died when he was 3. On the death of his father four years after he was left in poverty. By his guardian he was "bound out" to five different families in the back woods of New Hampshire. He devoted whatever leisure time he could get to reading and studying and when after obtaining a job which paid him a moderate salary he managed to save a small sum he continued his education more intensively, fitting himself to enter Boston University, through which he worked his way and from which he was graduated with B.S. and A.M. degrees.

He entered Harvard University, where he studied medicine. On being graduated in 1881 with the degree of M.D. he originated a new school of mental therapeutics. He early showed an interest in psychology and eventually became the founder of a new science of applied psychology. He preached "pep" and everlasting optimism.

His writings soon gained him distinction and in 1898 he established *Success*, with which he was actively connected until his death. His last editorial, "The Re-Discovery of God," appears in the March issue. More than

2,500,000 copies of his books, translated into twenty-five different languages, have carried his philosophy of optimism to people all over the world.

At an educational conference in Madrid a complimentary banquet was tendered Dr. Marden in recognition of the tremendous influence of his writings on the Spanish people. A college has been built in India through the inspiration received from his "Pushing to the Front." In less than ten months twenty-two editions of his works were published in Denmark, and called forth commendatory editorials from the prime minister and other notables. Alexander Rossi, an Italian senator, wrote a fifty-page pamphlet in which he urged his government to make the reading of Dr. Marden's philosophy obligatory in Italian schools, because he considered it a "civilization builder."

Among the noted men to indorse Dr. Marden's works were Theodore Roosevelt, Lord Northcliffe, Chauncey M. Depew, John Wanamaker, Charles M. Schwab, President McKinley, Judge Ben B. Lindsey and John Burroughs.

In the last few months Dr. Marden had rapidly established a reputation for radio talks, and was the author of a series of "Bedtime Stories for Grownups," which were broadcast each evening from Springfield, Mass. Dr. Marden served for seven years as president of the Aldine Club, made up of men allied with the publishing industries. He was a member of the board of directors of the Boys Club Federation.

He leaves his wife, who was Miss Clare Evans of Louisville, and three children, Orison Swett Marden, Jr., a student at New York University, and the Misses Mary Newell Marden and Laura Fletcher Marden. The body will be cremated in California and the ashes brought to New York, where services will be held.

Dr. Marden's home was at Sea Cliff, L. I.

Judge Albert Lawrence, Θ '77; Ω April 4, 1924.

Hon. Albert Lawrence, Θ '77, of Cleveland, Ohio, a former judge of the Court of Appeals, died suddenly at his residence, 1277 East 114th Street, on April 4, 1924. The beauty of the spring day led him to leave his law office in the Cleveland Discount Building at about four in the afternoon to work in his garden. The exertion brought on a heart attack and caused his death about half an hour after he was stricken. He was in his seventieth year.

Brother Lawrence was born at Old Washington, Guernsey County, Ohio, on September 15, 1854, a son of Hon. William Lawrence and Margaret E. (Ramsey) Lawrence, and was of Scotch-Irish descent. His great-grandfather came to this country toward the close of the Revolutionary war and settled in Maryland, in which state, at Havre de Grace, his grandfather was born. The family moved to Washington County, Pa., and about the year 1810 came to Ohio, where the judge's father was born. His mother was of Scotch descent, her ancestors coming to this country at an earlier date than those on the paternal side and settling in Pennsylvania.

The early education of Brother Lawrence was secured in the public schools and an academy, following which he entered Kenyon College in the class of 1877. He was initiated in the Θ charge, of which his brothers, James Lawrence, '71, Ω 1914, and William Lawrence, Jr., '71, Ω 1908, were members. He was a baseball player of ability during his college days. At the beginning of his junior year Brother Lawrence transferred to Wooster College, of which his father was a trustee. He graduated at the latter institution in 1877.

Brother Lawrence took up the study of law and was admitted to the Ohio bar in 1880, one of his fellow candidates for admission to the bar that year being the present chief justice of the supreme court, William H. Taft.

For a time Brother Lawrence practiced his profession in Cleveland, but moved to St. Clairsville, Ohio, where he was for years one of the leaders of the Belmont county bar. In 1904 he resumed the practice of law in Cleveland and was an active member of the Cuyahoga county bar until the day of his death. In 1918 Judge Lawrence was appointed to the court of appeals by Governor James M. Cox. At the end of his term he accepted appointment as head of the civil branch of the county prosecutor's office, retiring in 1921 to private practice.

Brother Lawrence's wife, Katherine Dodge Lawrence, died in 1916. They had no children. He is survived by two nieces, Mrs. Clifford B. Longley, of Detroit, and Miss Margaret R. Lawrence, of Cleveland, and a nephew, Keith Lawrence, Σ '13, of Cleveland, children of his deceased brother, Judge James Lawrence, Θ '71.

Brother Lawrence was an able lawyer, an honest judge and an upright citizen. His death was a great shock to a large circle of friends. Funeral services were held on April 7th and leading members of the bench and bar were pall-bearers. Dr. A. P. Higley, pastor of Calvary Presbyterian church, officiated. Brother Lawrence was buried in beautiful Lake View cemetery, in Cleveland.

Our late brother had worn the badge of $\Theta \Delta X$ for over fifty years. He was a member of the Cleveland Graduate Association and had always been a loyal Theta Delt. Although somewhat out of touch with fraternity affairs owing to his advancing age and to the fact that Θ charge was inactive, Brother Lawrence never lost his interest in and love for the fraternity. He was particularly interested in the present movement to revive Θ , and only a short time before his death he gave a hearty endorsement to the petition of Zeta Alpha at Kenyon College.

Dr. Charles M. Leighton, H '94; Ω March 25, 1924.

Dr. Charles M. Leighton of Portland, practicing physician and a former member of the faculty of the Bowdoin Medical School, died at his home on March 25 as the result of the recurrence of an old illness.

Dr. Leighton was born in Osage, Iowa, on July 8, 1870. While he was a young boy, his parents came to Portland, and he passed the remainder of his life there.

He was graduated from Portland High School in 1890 and from Bowdoin College in the class of 1894. In 1897 he graduated from the Bowdoin Medical School and for the following two years was house doctor at the Maine General Hospital. He was the city physician of Portland from 1899 to 1901. He also served two years as a member of the Portland Board of Health. He was instructor in clinical surgery at Bowdoin Medical School for so long as the school continued.

Dr. Leighton was a member of a number of medical associations and was prominent in the Masonic Fraternity. At Bowdoin he was a member of the Theta Delta Chi fraternity.

Besides his wife, Dr. Leighton leaves two sons, Lawrence B. Leighton, '25, and Wilbur F. Leighton, who will enter Bowdoin next fall.

NO. 1

Bill gets the managership next year. Charley Brown has resumed crew training and with his previous training has an excellent chance of a seat in the varsity shell.

Pledges Gross and MacKechnie are regulars on the frosh varsity basketball team and Pledge Cobley, who due to transferring is ineligible for varsity is on the sub-varsity basketball team. Cobley is a sure bet for varsity next year. Other pledges are out for crew, basketball manager, publication manager, track and track manager.

The next event on the social calendar is the formal, February 9. As the last formal was such a huge success we are looking for great things from the committee on the affair.

The freshman training starts next week and any wandering brother is invited to drop in and partake of our fun at the expense of the freshmen.

GILBERT F. GREELY, '25, *Charge Editor*.

By the time this letter is in print, Omi Deut will have her new delegation, which from prospects at the time this was written will be one which the charge and the fraternity at large can be proud. I want to take this opportunity to thank alumni

and brothers from other charges for the cooperation which they have given us by recommending possible Theta Deltas, and assure them that their recommendations received all consideration.

Apropos of the editor's letter asking that the charge letters be of more general interest than merely the recounting of the brothers' prowess in different lines, you might be interested in the system under which we conduct rushing here at Dartmouth. The interfraternity council here is a live and influential body and their rulings are lived up to by the fraternities. The system used this year is the one that has been in operation for several years, and though it has weak spots, we find that it works very well.

From the opening of college until immediately after exams in February, contact between freshmen and fraternity men is limited. Three nights a week the fraternities are allowed to call on the freshmen in their rooms between the hours of six-thirty and eight-thirty, though not more than two men from a house are allowed to call on a man a night.

Outside of that there is to be no contact between freshmen and fraternity men except in the case of men who have known each other before coming to college and ordinary dormitory acquaintanceships. Under no circumstances is a man to place a freshman under obligation to him in any way or talk fraternity to him. On two Sunday nights during the first semester, each house is allowed to invite freshmen to the house between certain hours. It is so arranged that about four houses are entertaining freshmen every Sunday. The three days immediately following exams are given over to intensive rushing. The freshmen are invited to the house for hour periods during which time they are chinned. Rushing ends at ten o'clock of the third day and a two-hour period of silence follows, at the end of which time written bids are delivered to the freshmen's rooms. He is given ten minutes in which to accept or reject in writing, then leaves his signed cards on his desk and goes to the house which he has accepted. The bids are all delivered and collected at the same time so that there will be no chance for one house to steal a march on the others.

Hanover is in the midst of her New England winter, with its abundance of skating and skiing, and the brothers are all getting ready for winter carnival, the annual event which has done so much to make the college known all over the country. The party is unique among college affairs and is truly
